

**14th – 17th May 2025
in Maputo, Mozambique**

International Congress of Psychoanalysis "Children, War and Persecutions"

A space for reflections on organized violence against children and their families through military violence, political and religious persecution, and atrocities, like torture or disappearance of parents, genocide and flight.

- Transgenerational effects; Discussion about integration of and combination with trauma specific ways of doing therapy
- Helping through psychoanalytic listening
- Individual psychological and developmental impact on children; Integration of traumatic experience into life plan
- Effects on families and communities; Identification of protective factors and support through local cultures
- Identification of most effective models of care to serve thousands of children and their families
- Peace Psychology
